

FASTFIX

Aluminium reinforced butyl flashing tape

Fast fix is the **everyday flashing and repair tape** suitable for all tradesmen and handyman alike who need a multi use flashing or repair tape capable of tough and durable performance.

Unlike most repair tapes Fast Fix has a solid BUTYL backing providing many advantages over traditional bitumen based tapes. The Butyl provides instant adhesion in most situations, requires no heating to adhere in lower temperatures and **will not dry out** when stored like the bitumen based alternatives.

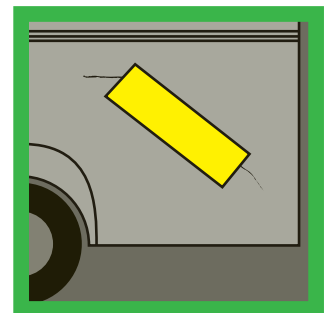

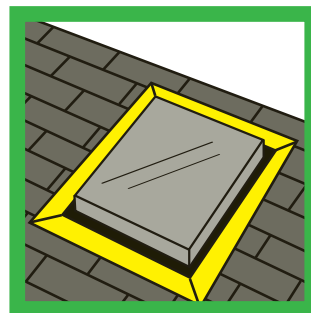

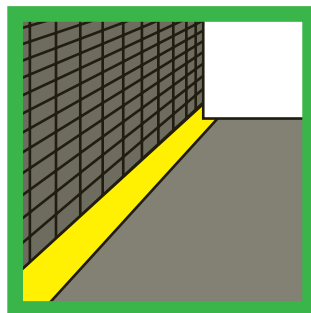

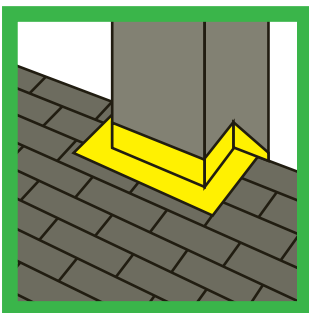

BENEFITS OVER BITUMEN REPAIR TAPES

- Excellent age resistance (much longer life)
- Bonds to virtually all non-porous standard building materials
- UV Resistant (does not harden with time)
- No volatile organic content
- Self-healing properties
- No external heat required for most typical applications
- Wide thermal range usability

USES

- Flashing
- Vapour-Sealing
- Pipe work
- Gutter repairs
- Waterproofing
- Sheds, Caravans & Boats

Available in 5m rolls
